

POISONING OF MRS. STANFORD A MYSTERY JAPANESE ARE STRIKING A DECISIVE BLOW

FRANK BARNET IS APPOINTED SHERIFF OF COUNTY.

HE WILL SUCCEED BISHOP

Unanimous Vote Given
Him by Super-
visors.

New Official Has a Good
Record in the
County.

Frank Barnett received the unanimous vote of the Board of Supervisors for Sheriff of Alameda county, to fill the office made vacant by the death of John N. Bishop, at a special session held this morning, and was declared the duly appointed successor to the late Sheriff.

ONE OPPONENT.
H. A. Borchert was his only opponent, and the good feeling between the two candidates for the place was shown when Borchert cordially congratulated his late antagonist, after the vote was announced, making a speech that indicated his sincere friendship for the successful man.

ROOM CROWDED.
When Chairman Mitchell called the board to order at 10:35 o'clock the room in which the Supervisors meet was crowded to overflowing with citizens interested in the action to be taken in the matter of choosing a successor to the late Sheriff John N. Bishop.

Politicians were there in plenty, and many business men as well. Standing room was at a premium, and even the window seats were packed with men anxious to be among those present during the election by the board of a new Sheriff.

Frank Barnett came in early, after passing through a crowd gathered at the court house entrance to congratulate and wish him well. Mr. Barnett's friends had prepared a petition, asking the board to appoint him Sheriff, and this was brought in and filed shortly before the board was called to order. A similar petition, in favor of H. A. Borchert, steward of the Receiving Hospital, was filed at about the same time. The partisans of each were in evidence.

INTEREST SHOWN.
When Chairman Mitchell's big gavel fell, calling for order, the buzz of conversation in the room ceased, and the chairman said: "I suppose this large audience is here to witness the selection of a new Sheriff for Alameda county. We will accordingly proceed at once to that business, so the room can afterward be cleared and the regular business of the board be transacted."

TWO PETITIONS.
Clerk Cook announced that two petitions had been filed in connection with the matter, and he was directed to read them. The first was in the interest of Mr. Barnett's candidacy, and read as follows:

FOR FRANK BARNET.
"To the Honorable Board of Supervisors: The undersigned petitioners respectfully show to your honorable board that a vacancy now exists in the office of the Sheriff of Alameda county, by reason of the death of John N. Bishop, who died on February 20, 1905. The said J. N. Bishop was at the general election held in the county of Alameda on November 4, 1902, elected Sheriff of said county of Alameda, and thereafter duly qualified by filing his official bond, duly approved by all the judges of the Superior Court

of the State of California, in and for the said county of Alameda, in the amount duly and regularly fixed by the aforesaid Board of Supervisors; that said Sheriff should give his official bond in and duly subscribed, and took the oath of office prescribed by the laws of the State of California, and thereafter and within ten days after he was notified by the County Clerk of the said county of Alameda, that he was so elected to said office of Sheriff of the said county of Alameda, he recorded at the County Recorder's office of the said county of Alameda, said bond and oath of office, so subscribed and sworn to by him and thereafter at 12 o'clock on January 1, 1903, he entered upon the discharge of his duties as such Sheriff of Alameda county, and at all times thereafter until his death, he was the duly elected, qualified and acting Sheriff of said county of Alameda.

PETITIONERS' QUALIFICATIONS.
"That the said office of Sheriff is a county office; that the petitioners, whose names are signed to this petition, are qualified electors of the county of Alameda, and your petitioners respectfully petition your honorable board to fill the said vacancy in the said office of Sheriff by appointment by your honorable board for the unexpired term of said officer or until the next general election.

"And your petitioners further respectfully petition that your honorable board appoint Frank Barnett, a qualified elector of Alameda county, a citizen of the State of California, and over twenty-one years of age, Sheriff of Alameda county, to fill the said vacancy in the office of Sheriff, caused by the death of said John N. Bishop, for the unexpired term of said officer or until the next general election.
(Signed) D. A. O'Brien, G. Peladeau, J. E. Baudry, J. J. Farrell, Martin Ryan, J. Mes Elliott, James Rogers, E. B. Reuden, F. T. Malley, L. E. Boardman, Ben O. Johnson, O. Argenti, H. N. Deming, G. M. Davis, Fred Hingdon, T. W. Sigourney, Henry Menges, M. J. Crow, D. W. Doody, Sash Calmes, Charles Mau, B. F. Jenkins, J. J. Connolly, F. B. Clarke, Morris Isaacs, Henry Wickins, Frank Anderson, B. Egenberger, W. J. Baccus, H. H. Sagehorn, F. S. Osgood, W. H. Sohst, C. W. Petry, H. B. Jeffery, Milton H. Schwartz, Ray Baker."

PETITION FOR BORCHERT.
A petition exactly similar to the foregoing petition, was read asking that H. A. Borchert be appointed Sheriff.

RESOLUTION BY KELLEY.
Supervisor Kelley then introduced the following resolution which was adopted:
"Whereas, John N. Bishop, the duly elected, qualified and acting Sheriff of Alameda county, died on February 20, 1905, and there is now existing a vacancy in the office of Sheriff, therefore be it

Resolved, that the Board of Supervisors fill by appointment for the unexpired term of said John N. Bishop, or until the next general election, the vacancy existing in the office of Sheriff of Alameda county, caused by the death of John N. Bishop, the said action being requested by petitions filed this day."

RESOLUTION FOR BARNET.
A resolution calling for the appointment of Frank Barnett was then introduced, and the vote being called for, the Supervisors registered as follows:

Supervisor Kelley: "Frank Barnett."
Supervisor Rowe: "Please pass my vote."
Supervisor Horner: "Frank Barnett."
Supervisor Talcott: "Frank Barnett."
Supervisor Mitchell: "Frank Barnett."

The vote of Supervisor Rowe was then called for, and he registered for "Frank Barnett."

There was clapping of hands when it was seen that Frank Barnett had received the coveted appointment.

NEW SHERIFF CONGRATULATED.
A long line of friends then gathered in front of Mr. Barnett, prepared to extend congratulations to the new Sheriff, Chairman Mitchell having declared a recess. Judge Melvin was present for the Superior Court, County Auditor Bacon mingled with the crowd, District Attorney Allen was present. Tax Collector Barber greeted his new associate county officer. The Recorder's office was represented by deputies, and County Clerk Cook and Chief Deputy George Pierce were there, as acting officials. Scores of prominent private citizens added their congratulations, and then the new Sheriff asked permission to address the board. He said:

SPEECH OF THANKS.
"Gentlemen of the Board of Supervisors: I desire to thank you sincerely for the honor you have just conferred on me. I appreciate your action, and assure you that I hope and believe you will not have cause to be ashamed of your appointment, or to regret that it was made. I thank you again."

MR. BORCHERT SPEAKS.
Mr. Borchert, a smile on his face and cordiality in his tone, made a brief speech while he grasped the hand of Mr. Barnett, saying that he congratulated Mr. Barnett with all his heart upon the success achieved in the contest for the position just ended, and that he wished him well, most sincerely.

The crowd dispersed, and the newly appointed Sheriff went to file his bond of \$80,000 with the County Recorder, and County Clerk. The bond is a surety for the faithful discharge of his duties.

SERVANT IS UNDER SUSPICION

May Have Placed Poison in the Bottle—Police Have a Clue.

HONOLULU, March 2.—There are indications today that the police of this city suspect a member of Mrs. Stanford's household of having placed strychnine in the bottle of bicarbonate of soda, a dose from which she took before retiring Tuesday night.

High Sheriff Henry says there have been no further developments in the case and that there are likely to be none before the holding of the inquest tonight.

The body of Mrs. Stanford has been embalmed and it will probably be taken to San Francisco on the Pacific Mail Company's steamer China, which will sail from Honolulu on March 10, and is due to arrive on March 17.

J. F. Hackfeld has been appointed the representative of the Stanford interests here, with Former Judge Stanley as counsel.

Dr. H. V. Murray, one of the physicians who conducted the autopsy, says that death was due to strychnine poisoning.

STATE UNIVERSITY REFUSED VOTE OF SENATOR.

Declares He Does Not Favor Its Maintenance By State Under Present Conditions.

SACRAMENTO, March 2.—"I desire to say that, so long as there is an institution in this State that is not accountable to the great State of California, an institution that is above the State in its financial affairs, and while I am a member of this Senate, I shall refuse to vote a dollar for the maintenance of such an institution. The methods of this institution are now before the people in this report, as they are before the Senate, and you may do as you feel disposed with it."

These were the words of Senator Carter, chairman of the special committee which reported that the Regents of the university were responsible for the defalcation of McKown and should reimburse the State for the same.

They were uttered after the Senate had failed to reconsider the motion by which that body had stricken out of the report words of censure of the Regents, and when it was apparent that similar action was to be taken with respect to the motion by which the amended report was not adopted Tuesday last.

Both motions to reconsider were made by Senator Lukens of Oakland. The motion on the amendment was lost by a vote of twenty-three to seven, Senators Leavitt and Mattos voting against and Senators Lukens and Simpson in favor of reconsideration.

The motion relating to the whole report was lost by a vote of fourteen ayes to eighteen nays, all the Alameda county Senators, Leavitt, Lukens, Mattos and Simpson, voting in the affirmative.

FIERCE BATTLE ON THE MANCHURIAN HILLS.

Japanese Drive Russians Into the Trenches and Face Machine Guns.

ST. PETERSBURG, March 2, 6:10 p. m.—The position of General Kuropatkin's army is regarded as being more or less critical. The real turning movement which General Kuroki is operating in the mountains forty miles eastward of Mukden seems to be making progress, and at the same time Field Marshal Oyama is also rolling back the Russian left, while the extreme Russian left and reinforcements have been dispatched in a northerly direction.

General Kuropatkin is making desperate efforts to check Kuroki, one of whose columns has succeeded in working around the Russian left flank and has been able to retire two miles to their sheltered trenches.

Some of the Russian newspaper correspondents anticipate an attempt to take the hills by storm.

WHO POISONED MRS. STANFORD?

No Doubt About Strychnine Being Placed in the Soda—The Investigation.

HONOLULU, MARCH 2.—THE CHEMIST'S REPORT OF THE ANALYSIS OF THE BICARBONATE OF SODA, OF WHICH MRS. STANFORD TOOK A DOSE SHORTLY BEFORE HER DEATH, STATES POSITIVELY THAT THE SODA CONTAINED STRYCHNINE.

CHEMIST WILL MAKE REPORT

HONOLULU, March 2.—High Sheriff Henry says he expects that the chemists who have been engaged since yesterday in analyzing the contents of Mrs. Stanford's stomach will make their report at 4 o'clock this afternoon. The inquest will be held tonight.

FRIENDS BELIEVE POISON STORY

SAN FRANCISCO, March 2.—The news received from Honolulu that strychnine had been discovered in the bi-carbonate of soda bottle from which Mrs. Jane Stanford took a dose shortly before her death, has convinced most of her friends here that she was the victim of poison, though many are reluctant to admit that such could have been the case. The apparent absence of a plausible motive for such a crime baffles her acquaintances as well as the detectives. Revenge or animosity are not regarded as possible factors of the question, and nothing has been shown to indicate that a desire to obtain an expected inheritance could have prompted the deed.

HER ESTATE.

Mrs. Stanford did not leave so large an estate as was supposed, for during her lifetime she deeded the property she inherited from her husband to the Regents of Stanford University, to be held in trust for that institution after her death. The last transfer of importance made by her was about three years ago, when she made over her magnificent residence on California street and at the same time she practically gave to the Regents of the University a trusteeship to her jewelry, which she provided should be disposed of for the benefit of Leland Stanford Jr. University after she had passed away.

WILL GET ESTATE.

Of those who it is presumed by friends are likely to receive a share of the estate left by Mrs. Stanford, it is generally believed that Miss Jennie Lathrop and her sister and brother, Hermelone and Leland Stanford Lathrop, the children of Charles Lathrop, will fare the best, for they were more frequently in her company than the others, and deeply interested Mrs. Stanford. Besides these relatives Mrs. Stanford is survived by a brother, Ariel Lathrop of Albany, N. Y.; two nieces, one in New York and the other in Brooklyn, the daughter of a late brother, Daniel S. Lathrop, and two nieces in Saratoga. That they have all been provided for is generally understood for Mrs. Stanford had frequently remarked to friends that while she did not see much of her relatives in the East she had not forgotten them and would remember them in her will.

LAST WILL.

Mountford Wilson, Mrs. Stanford's attorney, and her brother, Charles Lathrop, have stated that Mrs. Stanford made her will a few months ago, but until later they would not make its contents known to the world.

SHE BELIEVED IN SPIRITS

HONOLULU, March 1.—(10:20 p. m. Delayed in transmission.)—Mrs. Highton, wife of Henry E. Highton, the well known San Francisco lawyer,

says that Mrs. Stanford cried when telling her of the attempt which had been made to poison her in San Francisco, and said that she could not conceive why anyone should try to do so.

During a discussion on spiritualism Mrs. Stanford said she believed in spirits, and intended to establish a department at Stanford University for the investigation of psychic phenomena.

Miss Berner, her secretary, says in regard to the alleged attempt at poisoning in San Francisco that Mrs. Stanford drank a glass of Poland mineral water with the bicarbonate of soda, the strychnine in which made her violently ill, so much strychnine being absorbed that the stomach rebelled and she finally recovered. Miss Berner says, and Mrs. Stanford's maid, May Hunt, agrees with her, in their statements to the police that the bottle containing the strychnine was packed up in San Francisco five weeks ago preparatory to coming here, and that it remained untouched since then until it was opened last night by Mrs. Stanford herself, before taking the dose.

On arriving here after leaving San Francisco on the mail steamer Korea Mrs. Stanford said that she had left San Francisco unexpectedly and in a great hurry.

The police here will not express any theory regarding the unfortunate occurrence.

MOTIVE HARD EVEN TO SURMISE

NEW YORK, March 2.—"I am absolutely at a loss to understand why any one should have wished to take Mrs. Stanford's life," said Colonel George Perkins Lawton, Mrs. Stanford's nephew-in-law. "I am also unable to understand how such an enemy could approach her. She was always a careful woman and guarded by her servants and attendants, and although I am her nephew by marriage and the relations between us were most friendly, I was not always allowed to see her when I wanted to."

"That any of her servants could do the deed is to me quite unthinkable. Such a crime is not committed without a motive, and I don't see how any of her servants could have had such a motive. Her relations with them were always, so far as I know, pleasant and amicable."

EMPEROR REPLIES TO THE ADDRESS

ST. PETERSBURG, March 2.—Emperor Nicholas yesterday replied to the recent address of the Moscow Bourse, expressing attachment to the principle of the autocracy, saying: "In this year of grievous trial, this evidence of loyalty to the old traditions of Russia's political life has afforded me special gratification."

A WOMAN'S LECTURE TO A WOMAN FOR A MAN TO READ.

Three years ago a certain woman lecturer speaking before one of the Woman's Clubs of San Francisco, closed her remarks by telling us, "The happiest woman in the world, is the home woman. If you want to be happy, stay home."

In five minutes that woman aroused a greater storm about her than if she had assassinated the President. And yet she had spoken nothing more than the advice that every woman knows is good for her—that is good for her if she really has a home.

But alas, how many women—how many American women have a home? How many husbands try to make a home for their wives? When breakfast is over, they rush for their hats and their trunks. They lunch "down town." They eat dinner at home sometimes. When dinner is over, the paper is to be read. When the paper is read it is bed time. And the woman? She tries to find pleasure as best she can. Sometimes it is wholesome. But pleasure she must have.

Only a woman knows the length of the days at home. Only a woman knows the drariness of the evenings at home. Only a woman knows how little the other woman knew of American life when she advised her married sister to stay at home. A man meets new conditions every day. New problems arise with every hour. The dishes are always the same. The beds are made in the same way. The same broom sweeps the same room week in and week out, until the dish washer and the bed maker and the sweeper is borne down with soul weariness and takes to her round of shopping and street promenading and matinees in utter despair.

But the lecturer was right—that is to those fortunate ones who have a home. It is so easy to be happy when you are surrounded by the things that make for happiness. Give a woman her friends, her children, and above all her music and she will care for the home which these things make.

Music is the greatest art of all. It brings pleasure to the home; it brings friends; and friends and pleasure bring happiness. Show

me a home with a piano in it and I'll show you a home where the husband manages somehow to get home a little earlier than usual, I'll show you a home where he does not become so interested in his paper. I'll show you a home where the young people are singing and the older ones are gathering as often as possible to hear them and to help them out a little.

It means all the difference in the world—a piano. No home should be without one, especially now when they can be had for a mere song. Think of it, five dollars will put one into any home and when it is once there you will be surprised to see how quickly some one comes to play it even if you don't. You will be surprised to see how quickly the children pick it up even without lessons. Some of the greatest musicians learned their first scores with no other aid than their own desire to learn.

The great Co-operative Piano Clubs of Oakland, Berkeley and Alameda are now forming and any one can become a member. There are no dues, no red tape, no delays. As little as five dollars cash is all the deposit required. Five hundred people buy their pianos together and in this way make a saving of from \$50 to \$150 on every piano.

Can you afford to delay such an opportunity? Can you afford to allow your home to be but half a home because of that five dollars? Is it not worth your while at least to investigate such an opportunity? Any day when you are down town you can see these beautiful instruments that are going so cheap. There are over twenty different famous makes from which to make a choice. You are sure to be satisfied and the prices are so low that you do not need to know much about pianos to know that the saving is just as real as has been stated and guaranteed.

They are all on display, ready for your inspection at the Pommer-Ellers Music Company in their Oakland house, corner of Twelfth and Clay streets. Two blocks from Broadway. Come in any evening if you can't find time during the day. We are open until ten o'clock during the sale.

Scores of Men Fight in Attempt to Get Work.

POLICE RESERVES CALLED OUT.

NEW YORK, March 2.—A newspaper advertisement, offering a day's work to fifty snow shovelers, brought such a crowd of applicants to a point in Fifth street today that the police reserves were called out to check the scramble for work.

More than 300 men who came in answer to the advertisement were waiting before daylight, when the man with fifty checks, each of which would entitle the holder to a day's work, appeared on the scene.

The sight of the checks was the signal for a rush, in which every one of the three hundred joined.

Men were tossed right and left in the scramble to reach the holder of the checks, and within a minute every one of the bits of pasteboard had been given out.

Attempting to Decide Who is the Governor.

MAY OUST ADAMS FOR PEABODY

DENVER, March 2.—Consideration of the reports of the committee which heard the evidence in James H. Peabody's contest for the office of Governor was postponed today by the joint convention of the General Assembly in consequence of the death of Edward O. Wolcott, former United States Senator from Colorado. The General Assembly appointed a committee to draft resolutions in memory of the late Senator and adjourned until 10 o'clock tomorrow forenoon.

Four reports were filed with Lieutenant Governor Jesse A. McDonald by the gubernatorial contest committee to be presented today to the joint convention of the General Assembly, which will decide after hearing arguments, whether or not Governor Adams should surrender his office to former Governor James H. Peabody, who contested the election.

Fourteen Republican members of the committee, a majority of it, finally signed the report in favor of ousting Adams and seating Peabody, which was prepared by counsel for Peabody, but six of these committeemen declare they reserve the right to vote as they saw fit after hearing the arguments in joint convention. They said they signed the report merely to get the matter before the assembly.

At the final meeting of the committee yesterday afternoon for consideration of the contest, the Peabody report was signed by thirteen members. One of these, Representative C. E. Dungan of Montrose county, subsequently withdrew his signature, notifying Chairman Griffith by letter that he had signed "through misunderstanding." Two other Republican

members of the committee, Senator Morton Alexander of Jefferson county and Representative Alfred Stewart of Douglas county, who refused to sign the report at the meeting yesterday, changed their minds during the night and signed the report at the assembly today. Senator Alexander had previously filed a report in favor of declaring the election of Governor null and void, creating a vacancy to be filled by the Lieutenant Governor. This method of solving the difficulty received no support from the other members of the committee.

The nine Democratic members made a report recommending the dismissal of the Peabody contest because no case had been made by the evidence.

IMPORTANT REPORT.

The fourth report, which may prove to be the most important, was prepared by William H. Griffith of Chippewa creek, chairman of the committee, and bears, in addition to his signature, those of Representatives J. McIntyre of Denver, C. E. Dungan of Montrose and J. B. Thompson of Boulder, all of them Republicans.

This report sets out that there was shown to have been fraud in the election of 1900 in Denver, which was not disproved by Adams. However, it also sets out that Adams proved by his evidence that those of the 104 precincts attacked by Peabody were free from fraud, and that the election in them was regular.

On this account the report says, Adams still has enough votes to give him a good-sized plurality and election. The committee, however, advised that those of the report submitted by the Democratic members of the committee, but they are reached in a different way.

FRAUD IS ALLEGED IN DEAD WOMAN'S ESTATE

It is only after the third attorney had taken a hand in the examination of Miss Alice Cummings, a witness in the contest now being made over the will of the late Elizabeth O'Hanlon that daylight is being let into what seemed to be a curious case of literary or criminal foolishness where, by James F. O'Hanlon secured possession of \$1000 on the bank book of his deceased sister through an assignment made out and witnessed after her death. Attorney P. S. Britton for the Illinois Bank in San Francisco and friend of the court this morning took a hand in the proceedings and may ask for the arrest of O'Hanlon before he is through with the case.

Miss Cummings was one of the witnesses to the signature of the deceased, Elizabeth O'Hanlon to the assignment of the bank book. She was first carefully led over the ground by Attorney M. C. Haggart for O'Hanlon and then taken over the ground by Attorney Peter Crosby for Mrs. Mary Green, niece of O'Hanlon, who is contesting his right to the property and estate on the ground of his want of integrity, and now Britton wants to know just how the money came to be drawn

from the bank after the woman was dead without an authority of the court.

Miss Cummings stated this morning that the first time she saw the bank book was on the day Elizabeth O'Hanlon died. Mary Green found the book in a trunk and looking at the back of it saw the assignment there and said: "What a pity that this assignment was not made out before she died." The next time she saw the bank book James O'Hanlon had the book and a cross had been made and witnessed by Mary Green, then she witnessed it before the Public, and O'Hanlon took the book to the bank and got the money. O'Hanlon's name was also on the assignment and he testified that he never wrote and did not know how it got there or the assignment in the book.

It now develops that Mary Green had taken the book out of Berkeley valued at about \$2000 and that O'Hanlon had taken some flats worth \$7000 in San Francisco, and that the two apparently were preparing to divide the estate between them until they had a falling out and O'Hanlon brought suit against Mrs. Green for her property and that then she had instituted the contest of his administration of the estate which promises to end disastrously for both of them.

JAPANESE IN CHARGE

Clear Chinese From the Streets of Simintin.

NEWCHWANG, via Tien Tsin, March 2.—For months Simintin has been the headquarters of contraband trade and the Japanese heretofore have not interfered with it. In the arrival of the Japanese at Simintin the streets were quickly cleared.

The Chinese went into hiding and the great crowd of Greek and German traders became panic stricken, but the Japanese did not touch their carts, which were waiting to make a night trip to Mukden.

Three Cossacks were discovered. One of them was killed. The others escaped.

The Chinese report that previous to their entry into Simintin the Japanese dispersed a small body of Russian scouts, capturing fifteen of them.

On the completion of their examination of Simintin the Japanese withdrew to Pauchiatun. An engagement is expected, as it is known that Cossacks are not far distant.

Ten thousand Japanese troops are reported to be three miles south of Pauchiatun and numbers of Japanese in Chinese clothes are along the Kou-pai-tun line.

It is possible that the Japanese may seize Simintin, as it has been denaturalized, owing to Russian traffic there. There are large accumulations of stores at Chenkow and Koutantse.

Simintin is now quiet. The Japanese hold all the roads. On all sides are groups of Chinese whispering together and expectant camp followers who are anxiously awaiting instructions to pass out with their laden carts.

It is reported here that General Kuropatkin's left has advanced six miles.

FRANK BARNET IS APPOINTED SHERIFF

(Continued From Page 1.)

ty company bond, and was approved during the afternoon by the judges of the Superior Court.

CHANGES IN OFFICE.

Regarding changes that may be made in the Sheriff's office by Mr. Barnett, the new Sheriff said: "I shall retain Mr. Hanlin as under-sheriff, and will re-appoint Mr. Clark as jailer."

"Those are two matters that are settled. Further than that I am not now prepared to speak. There will be some changes in the office and these will be announced later."

Frank Barnett is a native son of Oakland. He is the son of John Barnett, retired police officer, who enjoys the reputation of having served as such for twenty-two years without ever using a club on a prisoner.

Mr. Barnett learned the decorating and paper hanging trade with the firm of Charles L. Taylor of Oakland.

He is a past president of Local Union No. 131, Brotherhood of Painters and Decorators of America.

He served in the session of the Legislature of 1897 as engrossing clerk and so efficiently as to receive the following endorsement from the committee on engrossment:

"SACRAMENTO, March 13, 1897. 'Whereas, The work of the engrossing clerk of the thirty-second session of the Assembly of California has been efficiently and faithfully performed, 'Therefore, Be it resolved that the committee on engrossment, endorse the work of said department as thoroughly efficient and satisfactory. Signed.

"C. W. AUSTIN, chairman.

"F. W. LEAVITT.

"GUSTAVE POHLMANN.

"HARRY MULCREVY."

He was appointed Deputy County License Collector by Tax Collector Barber in July 1st, 1897, and Mr. Barber, when seen today, had this to say: "I am glad to see Frank get the office. I have known him for twelve years and believe he will make a good officer. He worked for me two years and I found him to have a good head and conscientious and true. I feel that he will do his duty and that as soon as he gets the run of affairs will make a record that will speak for itself."

Mr. Barnett resigned his position as License Collector after two years service and was appointed as a Deputy Clerk of the Supreme Court and after holding this position for sixteen months retired with the following recommendation:

ALL HONOR HIS RIOTERS KILLED BY WORKMEN

COMMONWEALTH OF MASSACHUSETTS ATTENDS FORMER GOVERNOR'S FUNERAL

GROTON, Mass., March 2.—The Commonwealth of Massachusetts today honored the memory of George Sewell Boutwell, once Governor, and formerly United States Senator and Secretary of the Treasury. Numerous officials and townsmen attended the funeral, which was held at the Town Hall, and clergymen of all the religious denominations in Groton participated in the service. The State was represented by Governor Douglas and council and by delegations from the State Senate and House of Representatives.

In addition there were present representatives of the G. A. R., the town officials, the executive committee of the anti-imperialist League, of which Mr. Boutwell was president; ten members of the United Irish League of America, and many other minor delegations.

For two hours during the forenoon the body lay in state in the Town Hall.

Mr. Boutwell's pastor, the Rev. Pemberton H. Cressey of the Unitarian Church, officiated at the service. No eulogy was delivered, out of respect to the desire of the Boutwell family.

As the body was borne from the hall all the church bells in Groton, began tolling and the chiming in the chapel tower at Groton School played a muffled peal.

The burial was in Groton Cemetery. The honorary pall-bearers were former Governors Brackett and Long, John L. Bates, W. F. Wharton, C. Bigelow, Irving Winslow, Gabriel Bradford, Dr. Samuel A. Green, George A. King, John W. Parker, Michael Shedy and Col. W. A. Williams.

FRENCH LINER GOES AGROUND

NEW YORK, March 2.—The French liner La Bretagne, outward bound for Havre, is aground in the main ship channel near the southwest spit, New York harbor.

The La Bretagne was aground for only a short time. She got free by the power of her own engines at 12:12 p. m.

STANDARD OIL IS NOTIFIED

KANSAS CITY, March 2.—The Standard Oil Company was served, through its local agent-manager, C. W. May, today with legal notice of the filing of proceedings brought against it at Topeka, alleging failure to comply with the laws of the State. The notice required the company to answer Attorney-General Coleman charges on or before March 30. Manager Mayer said: "Of course we will protect the company's interest the best we can. If the company is violating any law, I do not know it."

One of City's Landmarks is Threatened By Fire.

FLAMES DAMAGE COLLEGE HALL.

Fire at an early hour this morning nearly destroyed College Hall, one of the historic landmarks of the city, at the corner of Twelfth and Harrison streets at 3:40 o'clock this morning.

The fire is supposed to have originated through the careless throwing of a cigar into a sawdust cupholder.

The dust smoldered for hours and finally broke forth in a flame.

Just below the hall itself there is a lively barn. One of the men who went to work at 1 o'clock in the morning heard a crackling noise which awakened him. He first thought it was raining but soon came to the conclusion that something aside from rain was making the noise.

He investigated and discovered the flames in the upper portion of the building. He ran down the street where he met Policeman McCurdy who turned in an alarm.

The prompt arrival of the fire department and the good work done by Fire Chief Ball and Fire Warden McDonald was responsible for saving the structure. The damage done will amount to less than \$100.

The hall had had much to do with the history of Oakland. It was at one time a part of the University of California.

After it was abandoned for school purposes it was used for social and political functions.

It is at present occupied by the Veteran Reserve as an assembly place.

CALIFORNIA AT EXPOSITION

SACRAMENTO, March 2.—A concurrent resolution offered by Stanton providing for California's representation at the opening of the Lewis and Clark Exposition at Portland, Ore., was adopted by the Assembly today. The resolution appropriates \$3000 for expenses and stipulates that the committee of California shall consist of the Governor, Lieutenant Governor, president pro-tem of the Senate, Speaker and Speaker pro-tem of the House and five members from each House of the Legislature.

"To whom it may concern: This is to certify that Mr. F. T. Barnett has been employed by me as a Deputy Clerk of the Supreme Court for the past sixteen months, and I cheerfully recommend him as a good clerk, a man of excellent habits and attentive to business, knowing he will fill any position he may accept to the full satisfaction of his employer. Respectfully,

"GEO. W. ROOT.
"Clerk of the Supreme Court."

"I hereby indorse the above.

"A. W. JOHNSON.
"Chief Deputy Clerk."

Mr. Barnett has since been connected with the office of District Attorney Allen as stenographer and when seen this morning Mr. Allen said:

"Frank has been a hard worker and an ardent supporter of the Republican party in city, county, State and National affairs and deserves the position. I have known him for many years and he has been connected with this office for some time. He has a good head and is of unquestioned integrity. He developed himself and began as a mechanic under the apprenticeship of Charles L. Taylor. In his later career he has been successful and has shown an unyielding loyalty to his friends, that has drawn many to him."

IS STILL ON FIRE

EUREKA, Cal., March 1.—The steamer Oregon which took fire up the coast off Crescent City night before last, lies beached on Mud Flats just below the plant of the Bendixsen Shipbuilding Company, with smoke pouring from the after skylight. The crew of the vessel are working hard to quench the flames between decks. Lines are being sent ashore to enable the vessel to be moved further up on the beach, and at high water this afternoon the steamer will be high and dry on the sand. The vessel is gradually being filled with water in the hope that the fire, which has smoldered along for over sixty hours, can be subdued in this manner.

The Oregon arrived off the bar at 3 o'clock this morning, having come from Crescent City, which point she left yesterday afternoon down the coast at a moderate rate of speed because of the heavy fog which overhung the coast. She was met at the entrance of the bay by the tug Ranger, which piloted her in without assistance or difficulty. The Oregon came down under her own steam and without aid from any other craft. Her progress was not retarded by the fire, her pumps being constantly at work and holding the flames in check.

A heavy list to port and the smoke rising from the skylights were the only evidences of the steamer's distress, her hull, decks, staterooms and cabins being intact. Upon entering the harbor, the tug took the Oregon to the spot where she now lies, and as it was high water at the time and her nose was run well up into the sand, she was made fast to the shore. The pumps which had been stopped during the landing, were then started working again, and the services of the tug were dispensed with, under instructions, however, that she would again be called upon in the event of any apparatus break down, of which there is some danger, owing to the fact that it has been operating day and night since the fire broke out.

BOMBS IMPORTED

ST. PETERSBURG, March 1.—Vast quantities of hand bombs are being imported into Russia. The discovery was accidentally made by the customs authorities at Wireballen, Russian-Poland, on opening an ordinary fruit box marked "oranges," which was found to contain a hundred small bombs. Scores of similar boxes have been coming in for weeks and the authorities fear they are already distributed. The bombs are not of the type of those used by the terrorists. They are more like hand grenades and it is thought possible that they were intended for distribution among the strikers as weapons with which to fight the troops. The efforts made by the police to locate the plotters has as yet been unavailing.

FERRIES COLLIDE

Flowing through the heavy bank of fog on the bay this morning, the Southern Pacific passenger ferry "Oakland" and the freight ferry "Thoroughfare" collided early this morning.

Both boats were proceeding slowly, so the shock as they struck was light and but little damage was done.

Some passengers were alarmed, but seeing that they were not in danger, soon quieted down.

Both boats continued their interrupted trip, and the "Oakland" made her regular trips all day.

The damage done amounts to about \$300.

DOES NOT BELIEVE POISON THEORY

SAN FRANCISCO, March 1.—Mr. Mountford S. Wilson, Mrs. Stanford's personal attorney, when seen in regard to the telegram to the effect that Mrs. Stanford's death in Honolulu was perhaps due to poison, said that in his opinion, and in the opinion of Charles J. Lathrop, Mrs. Stanford's brother, there is not a word of truth in the report; that shortly before she went to Honolulu she had a very severe bronchial cold, and her physician, Dr. Boericke, advised her to seek a warmer climate.

Mr. Lathrop and Mr. Wilson both believe there is nothing whatever in the stories telegraphed from Honolulu, and say that without doubt Mrs. Stanford died a natural death; that she was of advanced age, had been in poor health for some time and probably died from heart failure, apoplexy or some similar trouble.

BUILDING A NAVY

MANILA, March 1.—M. Bloomfield, a Russian naval reserve officer, who came here February 27 as supercargo on the British steamer Carlisle, which, within thirty-five days out from Vladivostok with supplies for Port Arthur was, after losing her propeller, carried by contrary winds and currents to Philippine waters, said today that great work for the Russian navy is now being done at Vladivostok and that complete equipments for three shipbuilding yards have been transported from Germany.

Six cruisers of the first class, the officer says, are now in course of construction there.

M. Bloomfield claims that he laid the mines which blew up the Japanese battleship Hatake off Port Arthur on the morning of May 15.

SACHETUN, Manchuria, March 1, 1 p. m.—The Japanese opened a tremendous fire with field and siege guns against Putloff (Lone Tree) Hill.

Columns of white smoke envelope the hill on two sides.

The bombardment of the right flank continues.

PUTS TAX ON GIFTS

SACRAMENTO, March 1.—Senator Lukens' bill to establish a tax on gifts, legacies, inheritances, bequests, devises and transfers, which had been made a special order, passed the Senate this morning.

Members of Alameda raised the objection to the bill on the ground that the County Clerk of San Francisco would be swamped with additional work. Lukens indicated that he would have the bill so amended in the Assembly as to remove the objections urged.

This is one of the bills designed to reconstruct the revenue and taxation laws of the State, under its provisions it is believed \$1,000,000 annually can be raised with a corresponding decrease in the State tax rate.

RAILROAD FAVORS ELECTRIC

SAN FRANCISCO, March 1.—In discharging the order to show cause why the Pealuma and Santa Rosa Electric Railway should not cross a spur track of the California Northwestern at Sebastopol avenue, Santa Rosa, Superior Judge Seawell today maintained the point of view that railroad corporations cannot have the comparative status of a public highway, and may be crossed by a rival line without compensation being given. In uttering the opinion the court quoted at length from decisions given in similar cases in many States and in the Federal courts.

LOS ANGELES, March 1.—The Chicago National Baseball Club arrived in Los Angeles and proceeded to Santa Monica, where the spring practice will be held.

MRS. STANFORD GIVEN STRYCHNINE.

**Physician Says He Can Taste Poison in
the Bicarbonate of Soda She Took Last
Night—Mystery Surrounds Her Death.**

(From Yesterday's Last Edition.)

HONOLULU, March 1.—Mrs. Stanford took a drive over the Pali road yesterday accompanied by her secretary and her maid. When she returned to the hotel she seemed very cheerful, and went immediately to the dining-room, where she ordered only soup, saying that she was not hungry as she had eaten a hearty luncheon.

She spent the evening on the verandas of the hotel, and apparently was in good spirits.

Mr. Heunish, who, as already told, was the first to see Mrs. Stanford after she was taken ill, said to the correspondent of the Associated Press:

"I retired shortly before 11 o'clock last night and soon fell asleep. My room is next to that occupied by Mrs. Stanford.

"I had not been long asleep when I

was awakened by hearing a groan and then another groan.

"I opened my door and saw Mrs. Stanford standing in the doorway of her room. She threw up her arms as if suffering great pain and said: 'Oh, I am so ill. Get me a doctor; get me a doctor.'

SUMMONED PHYSICIAN.

"I ran to the elevator and summoned Dr. Humphris, who was a guest of the hotel. Mrs. Stanford at that time did not seem to be very weak."

TASTES STRYCHNINE.

Dr. Humphris and his wife today took very small portions of the contents of the suspected bottle of bicarbonate of soda, and say that it tasted very bitter and that they believed it contained strychnine.

The doctor says there were indications of strychnine, but he declined to

express a positive opinion before making an analysis.

MAID IS SORRY.

SAN FRANCISCO, March 1.—Elizabeth Richmond, the maid who was dismissed from Mrs. Stanford's service after the attempted poisoning of January 14, expressed surprise and grief at the news of her death.

"Oh, I'm sorry, I'm so sorry," she said this morning.

"Yes, Mrs. Stanford was in the habit of taking bi-carbonate of soda. She kept it in her dressing room and often took a little of it in water when she ate anything that disagreed with her.

"No, I did not expect this. Others have said they did, but I thought who ever made that first attempt would never dare to repeat it. I am sorry to hear she is dead, and really I can't say any more."

FLORAL PIECES.

In part evincing the esteem in which Mr. Bishop was held by a multitude of floral pieces, some sent to the Sheriff's late home and others to the church. At neither place was there sufficient space available for a proper disposal of these mute emblems of sympathy, affection and esteem. Among these floral tributes were all conceivable forms of the florist's skill. Of wreaths, sprays and other simpler forms there were hundreds, many of them without words to show from whence they came. Of the more elaborate set pieces these were grouped upon stands about the pulpit at the First Congregational Church.

From company workers of the bridge building department, Southern Pacific Company, a "Gates Ajar," surmounted by a white dove and cross. Also a cycle of floral pieces.

The Brotherhood of Eagles No. 7 were represented by a shield, above which a floral eagle stood with outstretched wings pinioned for flight. The eagle was wholly of galax leaves from Maine. The shields and body were of violets, draped with broad lavender ribbons. Upon the base was the inscription, "Brother F. O. No. 7." This was a magnificent piece of work.

Former Councilman Louis Schaffer sent an anchor on a stand.

Other beautiful pieces were from Harbor Lodge No. 244, Eastern Star, No. 244; Unity Order of Eastern Star, No. 244; and Crescent from County Assessor's office.

Triangle from Royal Arch No. 82, R. A. M.

Roll of Bank Notes Stolen

**Taken from a Bureau Drawer While the Family
was at Dinner.**

During the past few days the newspapers of California have published many stories of losses by theft of money, jewelry and other valuable things. In nearly all cases the articles were deposited in desks, bureau drawers, and in one case five hundred dollars in gold was hidden in a sauce pan in the kitchen. In no case were the stolen articles recovered. Doubtless there are in Oakland thousands of people who are thoughtlessly imperiling articles of value and vertu which they consider priceless because they could not be duplicated. It is a wise idea to tempt thieves to your homes by the knowledge that such things are handy? Would it not be much wiser and as a business proposition much more economical to rent a box in the magnificent safe deposit vaults of the Central Bank, than to run any such risk? In the incident above referred to, where five hundred dollars in gold was stolen, we would emphasize the fact that had its owner expended four dollars a year in renting a safety box, she would now be \$496 to the good.

These ideas are worth thinking about—and acting upon.

NEWSBOYS AT THE MACDONOUGH

THEY WERE PLEASED WITH THE
 PERFORMANCE OF "NETTIE
 THE NEWSGIRL."

There were hundreds of newsboys at the Macdonough Theater last night to witness the performance of "Nettie the Newsgirl," which is the excellent attraction at that theater this week. Some one asked if they were pleased. They were pleased. They simply loved their approval and cheered Nettie to the echo every time that she thwarted some scheme of the villains and bided that individual every time he appeared. As one of them forcibly if not elegantly expressed himself on leaving the theater, "Holly Gee, but it was great." Nettie's remark was seconded by one and all in a grand chorus that was simply deafening. The criticism will be found in other columns of this paper. "Nettie" will be the attraction at the Macdonough every evening this week and at the matinees on Saturday and Sunday.

LAWRENCE D'ORSAY.
 The special engagement of Lawrence D'Orsay in Augustus Thomas' charming society farce, "The Earl of Pawtucket," will interest the fashionable patrons of the Oakland Theater when it is presented at that house. With Mr. D'Orsay will appear the entire New York cast.

The engagement is announced as the attraction for the Macdonough theater for Monday and Tuesday evenings, March 6 and 7.

derstood from his friend, Weatherbee, that such was the case.
 "Weatherbee must have been spoofing," remarks his lordship.
 "I beg your pardon," says the girl, nonplussed.

 CHAS. B. HANFORD.

The costume's art has been lavishly drawn upon for Charles B. Hanford's productions of "Don Caesar de Bazan" and "Othello." The ladies of the company all appear in the most delicate brocades, and the gentlemen in the elegance in which the Elizabethan period revealed. As a series of stage pictures alone, the production promises rare interest, and added to this is the charm of a carefully selected company. The engagement is limited to two nights beginning Wednesday, March 3, at the Macdonough Theater.

WELSHMEN MEET AND CELEBRATE

SAN FRANCISCO, March 2.—The Welshmen of this city and Oakland honored the eve of the anniversary of their patron saint, St. David, by giving a banquet at the Occidental Hotel. The night was made memorable by Celtic eloquence, interspersed by the melodies of Cumbria. The customary toasts were responded to by Professor Thomas Price, H. T. Roberts, T. J. Evans, Rev. Father Gee and D. J. Hughes of Oakland. H. J. Owen, Jeremiah Watts and Emily Lewis, Welsh songs were sung by Robert H. Thomas, David Hughes and William S. Jones. Mr. Lewis and William Barr presided at the piano. Last evening the Cymrodorion Society celebrated the anniversary at Red Men's Hall, at which a splendid program of Welsh music was presented, followed with refreshments.

Wishart's Drug Store has a very attractive show window display of the articles manufactured by the Pinus Medicine Company of San Francisco. This well known medicine company has met with unusual success during the past four years in the sale of fruit and Traxo. These articles have been placed with Wishart's Pharmacy, and the proprietor has made a very attractive window display.

DIES AT HOSPITAL.

CANDIDATES ON THE TICKET SPEAK AT ALOHA HALL.

The Union Labor party held a rally at Aloha Hall, West Oakland, last night. City Attorney McElroy was the principal speaker. He said in part:
 "This locality has not forged ahead as rapidly as its geographical position actually demands. It is a well-known fact that the first few miles many visitors obtain of our beautiful city is over the marshes on the west shore near where I now stand. Instead of greeting our visitors with a view of stretches of green sward, beautiful trees and well-ordered parks, the present unseemly condition exists."
 "The public good and best interests of Oakland require that the neighborhood of the Sixteenth street depot be made one of the most attractive of the city of Oakland. The first impression is often the last, as well as the most lasting, and therefore as this section is close to the great highway over which thousands of people come and go each month, it behooves the officials of the municipality to exert themselves toward improving its natural advantages. I am heartily in favor of beautifying this section with a public park."
 McElroy then called attention to his record in office and pledged himself, in case of re-election, to action in the future as in the past.

George E. Randolph, candidate for Mayor; E. L. Blair, Murray Laidlow, C. C. Swafford and many of the other candidates also addressed the meeting and were enthusiastically received.

NARROW ESCAPE ON KEY ROUTE

PASSENGERS THROWN INTO
 PANIC—SWITCHMAN PROVES
 ACTIVE.

Through the presence of mind of T. S. Ferguson, a switchman, stationed near the eastern end of the bridge where the Key Route ferry boats land, a collision was averted on the Key Route about 7 o'clock yesterday morning.

The train, well filled with passengers, after leaving the mole at 6:45 o'clock, began running at a high rate of speed as the result of a break in the spring of the trolley.
 For three quarters of a mile it dashed on while the passengers frantically pulled at the belt rope in a vain endeavor to have the motorman bring the train to a standstill. When the cars were finally brought to a stop at the end of the bridge from the landing place of the ferry-boats the frightened passengers piled out, glad to make their escape. It was with difficulty that they were induced to re-enter the train and continue their journey.
 Aside from the fright sustained by the passengers the only damage done by the wild ride taken by the train was the dislodgment of three posts and the broken spring. The posts were replaced and traffic was resumed at 10 o'clock.
 Ferguson, the switchman, seeing that the train was running away and beyond the control of the car brakes, threw the switch and kept the runaway on the east-bound track until the west-bound train had passed. After passing the switch the train ran on a short distance further and then responded to the air brakes and was brought to a standstill.

NO CHARGES AGAINST ROWLAND

The charge of misdemeanor embezzlement preferred against Warren Rowland by P. Flaherty, was dismissed on motion of the prosecuting attorney in Police Judge Samuels' court this morning.
 Rowland was arrested on suspicion of having stolen the home of his deceased parents, 218 Center street, with burglarious intent.
 While he was in jail the charge of embezzlement was preferred against him. He is alleged to have taken \$20 to change for Flaherty and to have never returned. The charge of burglary made against him by his brother, George Rowland, has also been dismissed.
 The two men who were with him when he entered the home where his father killed his mother and then murdered himself, have been released also.

GIRL IS RUN OVER.
 Olivette Pridemore, a school girl, residing at 1609 Eighth street, while on her way to the Presbytery yesterday, was run over by a butcher cart. The name of the driver is unknown. Her face was badly skinned and she was otherwise bruised. There were no bones broken.

PRELIMINARY EXAMINATION.
 The preliminary examination of Lindsay Hackett, a switchman, who is alleged to have attempted the life of Policeman Fahey, while under the influence of liquor, by thrusting a revolver into the officer's stomach, was fixed this morning by Police Judge Samuels for February 15.

LABOR PARTY MEETING

The Union Labor party held a rally at Aloha Hall, West Oakland, last night. City Attorney McElroy was the principal speaker. He said in part:
 "This locality has not forged ahead as rapidly as its geographical position actually demands. It is a well-known fact that the first few miles many visitors obtain of our beautiful city is over the marshes on the west shore near where I now stand. Instead of greeting our visitors with a view of stretches of green sward, beautiful trees and well-ordered parks, the present unseemly condition exists."
 "The public good and best interests of Oakland require that the neighborhood of the Sixteenth street depot be made one of the most attractive of the city of Oakland. The first impression is often the last, as well as the most lasting, and therefore as this section is close to the great highway over which thousands of people come and go each month, it behooves the officials of the municipality to exert themselves toward improving its natural advantages. I am heartily in favor of beautifying this section with a public park."

FRED STRATTON TAKES OATH

AGAIN SWORN IN AS COLLECTOR OF THE PORT.

SAN FRANCISCO, March 2.—Fred S. Stratton appeared in the United States Circuit Court and took the official oath as collector of the port before Judge Morrow. It is the first time in forty years that a collector of the port has succeeded himself for the second term.
 The law requires that within ten days after the change of the administration of the customhouse that a thorough examination of the books, cash and property shall be made before the formal transfer is made. Notwithstanding the fact that Mr. Stratton will make the transfer to himself, the examination will be made as usual. Experts will come from Washington and make an examination. There is now over a million dollars to the credit of the customhouse in the sub-treasury.
 The regular business of the customhouse will not be interfered with during the progress of the official transfer.
 Collector Stratton was yesterday empowered by the authorities at Washington to appoint six additional inspectors at the customhouse at \$4 per day.

Mrs. Jane Lathrop Stanford.

The universal regret that will be inspired by the death of Mrs. Jane Lathrop Stanford will be tempered by the knowledge that she had reached the fullness of her time and that any lengthening of her years would have meant an existence clouded by mental delusions and hypochondriacal idiosyncrasies bred of sorrow, which made her lonely and ever carried her back to long past associations.

She was a noble woman. The people of California owe her a debt of gratitude which they can only pay by cherishing her memory in grateful affection. The great institution to which she gave her fortune, her energies and her love is more truly a monument to her than it is to her husband. She sought to make it not alone a seat of learning but a place where character is fashioned and ennobled. In Stanford's teaching the materialities of worldly striving for place and profit are not permitted to overshadow that finer culture which makes for nobility of soul and purity of life. This shaping of the University's mission is due to Mrs. Stanford far more than to her husband, whose death robbed Palo Alto of his influence and made that of his wife dominant.

In saying this there is no intent to minimize the influence and labors of Dr. David Starr Jordan. No better proof of Mrs. Stanford's wisdom and unselfishness can be cited than the confidence she reposed in Dr. Jordan, and the large plenary commission she gave him to give scope and purpose to the work of the University while it was in process of creation. Dr. Jordan gave Palo Alto ideals—atmosphere—the groundwork for traditions, the models for scholastic excellence, the standards of both manhood and scholarship.

It is a wise benefactor who can choose a wise agent and refrain from personal interference in a work requiring a ripe scholarship, a profound knowledge of human nature, a wide range of human sympathies, and an ardent love for the spiritual in literature and life, coupled with the talents of an administrator and the capacity of a great instructor. Mrs. Stanford's one interference was unfortunate for Dr. Jordan and the University, but it was not an unmixed misfortune, for it pointed a moral and, perhaps, taught Mrs. Stanford a useful lesson. At least she never did it again. The marvel is not that she made this one mistake, but that she did not make many worse ones.

Stanford University was founded by Senator and Mrs. Stanford as a memorial to their only son. Its conception embraced the beautiful ideal of educating and building up young manhood, such as they hoped to see in their son had he lived. Senator Stanford selected Dr. Jordan to preside over the infant institution during its formative period, but died before the University was securely planted. Financial difficulties arose which sorely taxed Mrs. Stanford's self-denial and Dr. Jordan's administrative talents, and for several years the future of Palo Alto was involved in doubt. Had Mrs. Stanford been less fixed in her resolution, less ardently devoted to the project to which she had consecrated her life and her husband's fortune, had Dr. Jordan been less confident of the future, less sensitive to the obligations he had assumed, less willing to pursue the task set before him, the consequences would have been disastrous.

Fortunately a high resolve on one side was matched with a noble abnegation on the other, and the University emerged from its difficulties a magnificent institution, planted on broad and firm foundations, secure from the vicissitudes of the future. Its beautiful structures harmonize with the inner life, the higher learning inculcated within their precincts. Mrs. Stanford lost her one son, but out of her grief and affection have sprung a multitude to venerate her. All the alumni of Palo Alto are her children, and countless generations will rise up to call her blessed. She has borne of her bereavement a progeny to glorify her memory and her sacrifices. Out of her widowhood has come a priceless crown of motherhood.

If Dr. Osler is right the chief "vitalizing forces" of the United States are Beveridge of Indiana and Joe Bailey of Texas. Allison, Lodge, Spooner, Platt, Hawley, Gorman, Foraker, Frye, Hale, Depew et al. are on "wuzzers," who are hanging on to the tail-gate of the car of progress. How Bailey and Beveridge would whoop it up if they could only throw the dead weights overboard!

A fashion paper says Easter bonnets will be smaller this year than last. There will be no diminution in the size of the milliners' bills, however.

A St. Louis woman has sued a street railroad company to recover \$30,000 damages for being put off a car. She tendered a silver five-cent piece of the vintage of 1851 in payment of her fare, but the conductor, who had not arrived in the country in 1851, failed to recognize the coin as American money and bundled the lady into the street for trying to bunk him. If the defendant corporation adheres to the policy that governs many street railroad companies that intelligent conductor will be made superintendent.

The Situation in Manchuria.

For several days a great battle has been raging in Manchuria. The result is yet in doubt, but the little reliable intelligence that trickles out through the rigid censorship maintained on both sides indicates that the Russians are getting the worst of it. Even the St. Petersburg dispatches foreshadow Kuropatkin's retreat, which would involve the abandonment of Mukden as his base and the Hun river as the line of his defense.

The dispatches from Tokio are meagre and indefinite, but it is not the wont of the Japanese to give out information while great strategic movements are in progress. The Japanese never boast of victory till it is won, and they never apprise their antagonists of the objectives of their field maneuvers by giving out details of partially accomplished movements. In this respect, as in many others, their policy is totally at variance with that pursued by the Russians, who boast of victory every time they gain a trifling or temporary success.

The sudden stoppage by the St. Petersburg War Office of all news from the front is significant; it is in such contrast to the vainglorious dispatches that had previously been coming in from Kuropatkin's headquarters. It is ominous for the Czar's recently expressed hopes of speedy victory, to say the least.

We know now that Kuroki was partially, if not wholly, successful in turning Kuropatkin's left flank, and that Oku has assaulted the right with his customary fierceness and resolution, while the center is being menaced under cover of a tremendous fire from siege artillery brought up from Port Arthur. In short, the Japanese are striking the Russian positions at various strategic points all along the line, extending for nearly one hundred miles from the northeast horn of the semicircle to the extreme southwest. If either of the wings crumple up or the center gives way Kuropatkin will be forced to order a general retreat under pressure of simultaneous attack. The consequences to the Russian army could not fail to be disastrous, especially as all traffic on the Trans-Siberian railway has been suspended for the past nine days on account of the strikes and other disturbances in Russia.

The public will be loth to believe Mrs. Stanford died of poisoning. If she did, she was either the victim of foul assassination or died by her own hand, as a result of that curious form of hallucination which leads its victim to do what others are suspected of trying to do. Either hypothesis is shocking. What possible reason could any member of her domestic entourage have had for seeking the life of this aged lady, who was so universally kind to all near her? It is to be hoped that

thorough investigation will make it clear that no crime was committed. With its bereavement and self-sacrifice, Mrs. Stanford's life was something of a tragedy, despite the noble purpose to which it was in the end consecrated, and it would be pitiable indeed if it develops that it closed in the shadow of murder or suicide.

One of the items in the River and Harbor Bill is \$5000 to "improve Esopus Creek." Esopus, Esopus! Where have we heard that name before?

WHO IS BEHIND THE ROAD

We are informed by the San Francisco Call, now, at some length, that it is the Huntington millions, and not those of the Gould family, that are behind the Western Pacific. That is interesting. The truth, however, is that the Western Pacific is backed by Watt Brown, the debonair and versatile railway writer of the San Francisco Call. But do not tell anybody.—Nevada City Miner-Transcript.

ISLE OF BEAUTY, FARE THEE WELL

Shades of evening, close not o'er us,
Leave our lonely bark awhile;
Morn, alas! will not restore us
Yonder dim and distant isle.
Still my fancy can discover
Sunny spot where friends may dwell—
Darker shadows round us hover—
Isle of Beauty, fare thee well!

'Tis the hour when happy faces
Smile around the taper's light;
Who will fill our vacant places?
Who will sing our songs tonight?
Through the mist that floats above us
Faintly sounds the vesper bell,
Like a voice from those who love us,
Breathing fondly, Fare thee well!

When the waves are round me breaking,
As I pace the deck alone,
And my eye is vainly seeking
Some green leaf to rest upon;
When on that dear land I ponder,
Where my old companions dwell,
Absence makes the heart grow fonder—
Isle of Beauty, fare thee well!

Hints for the Ladies

A good polish for floors is made by shredding finely two ounces of beeswax and one ounce of yellow soap into a jar. Pour over enough turpentine to cover and slowly dissolve on the stove, stirring occasionally with a stick. When cool the compound will be fit for use.

When blankets are to be washed for the first time they should first be soaked overnight in cold water and then rinsed. This is to remove the sulphur used in the bleaching. After this they should be soiled until clear in a lukewarm lather made with boiled soap and water and then rinsed well in clear water.

Every kitchen should have at least one sinker—that is, a saucepan with a double bottom, the lower one perforated to admit air. There is a space of half an inch between this and the upper bottom. Food cooked in a saucepan of this kind cannot burn and it may be kept at a gentle heat for hours.

To clean white marble take one ounce of powdered pumice stone, two ounces of washing soda and one ounce of powdered chalk. Pound these together and pass through a sieve. Take a little of the powder and make into a paste with cold water, rub it over the marble and when stains are gone wash well with soap and water.

It is literally true that a new broom sweeps clean. If a new broom is examined the ends of the straws will be found to be straight and the brush square. After it has been used awhile the ends split and become sharp and the shape of the brush becomes irregular. To renew the youth of the broom dip it in hot soap suds and trim the softened straws to the proper shape.

Black, gray or variegated marble may be cleaned by rubbing with a paste composed of one gill of ox-gall, one gill of soap suds and half a gill of turpentine, mixed and thickened with powdered pipe clay. Apply this paste with a brush, let it remain for two days, then wipe it off, and if you do not find the marble bright and clean repeat a second or even third time, and it will certainly succeed by repetition.

To remove scorch from linen, put into a pan an ounce of soap, three ounces of fuller's earth, the juice of two or three large onions and a teaspoonful of vinegar, and let them all boil together till they form into a paste. Then spread the mixture thickly over the scorched place and let it dry on. Unless the scorching be so bad as to have destroyed the fabric, all marks will be found to have vanished when the linen has been washed once or twice.

If the supply of grape jelly runs low and there is some special need for it for an invalid it can be made even now in the dead of winter, and that without buying the fruit itself. Use the bottled grape juice sold by grocers and druggists. Turn it into a saucepan, add the usual amount of sugar and let it boil a short time. The result will be a very good and pure grape jelly with a very trifling amount of work. To be sure, this is adapted to small families and light housekeeping methods, rather than to large households, because for such it would be cheaper to buy grapes by the basket and put them up. Doubtless the German current and raspberry juices obtainable of grocers could be similarly used and the cherry also, if some apple be added as a foundation.

Popular opinion is the most fickle thing on earth.

Some men get good when they get too old to be bad.

The compliments women fish for are not worth catching.

Fortunate is the woman who has many complaints and few diseases.

A man is seldom afflicted with the big head unless he has a little heart.

A homely figure in petticoats may have a handsome figure in the bank.

If some men didn't have money women would have no excuse for marrying them.

The average married man can't understand how Carnegie managed to save so much money.

Posterity may see that justice is done a man, but he would rather attend the trial in person.

When a young man is convinced that there is nothing to be gained for a certain girl he offers himself to her.—Chicago News.

were registered 4,348 applicants. Washington at its worst surely has nothing comparable to that. Every one of these 4,000 applicants, however, could have passed an examination along certain stereotyped lines which would have lighted the hearts of our civil service reformers.

The French system of education is intensely national. Its plan is exactly the opposite from our own school system.

With us the local community controls primary schools. In France the local community has no voice in the matter. The French system is the most centralized of the most strictly regulated.

The most autocratic and the furthest removed from democratic ideas of any school system in existence is that of the French Republic.

The exact uniformity of the schools is almost unbelievable. The Minister of Instruction, sitting in his office in Paris, can tell at any moment just what table of La Fontaine each child of a certain age throughout the whole of France is reciting. Teachers are not allowed any latitude at all. The result is to leave both teachers and scholars almost completely lacking in mental originality.

COST OF THE WAR.
(From the London Express.)

It is obvious that what was conducted on a system of such magnitude as that in the East must be terribly costly. From the latest official figures given out in Russia, it appears that the cost of the war has been practically \$7,500,000 per week since the war began.

As regards the expenditure of the Japanese, the Mikado's finances have calculated the cost of the war at \$60,000,000 so that the cost of the war to Russia has been practically \$7,500,000 per week since the war began.

The total cost to this country of the South African war, it will be remembered, was estimated at \$1,100,000,000. It is fairly safe to assume that for so long as the present struggle lasts the expenditure will continue on something like the same gigantic scale, training the resources of both countries to the utmost.

RHEUMATISM CURED

Why suffer the pangs of this torturing and disfiguring disease, when it can be speedily and permanently cured with one bottle of Pinus?

Pinus contains neither salicylic acid, potash, or soda, so will not depress the heart, affect the stomach or in any possible way injure the system.

Welcome! The First Month of Spring

This heading would not be appropriate in most parts of the world. The month of March is associated with blustering winds and generally unpleasant weather; but not so in this section of California. We regard March as the opening month of Spring, because the warm sunshine and the wealth of floral beauty that we see everywhere, so proclaim it.

Just as the bright Spring time makes new window adornment necessary, we offer a Special Sale of Beautiful Curtains

This is a most timely opportunity—indeed it could not have come at a better time for housekeepers. These curtains are all new, having come direct from a manufacturer who was willing to sell a large quantity on most generous terms.

Arabian in color and in a variety of designs, these curtains are beautifully made with fine insertions, edgings and motif trimmings, with heavy, full ruffled bottoms.

The Latest Arrival in Ladies' New Tailored Suits

The newest model is made of fine herringbone fabric, has a blouse waist, with neck tabs and postilion back; newest shape of sleeves; skirt is kilted and the general effect is very smart.
Price \$18.50. Other new suits up to \$45.00

Not a Single Day now but some Pretty New Hats

are received. They're not the swell Summer millinery which will distinguish our opening display a few weeks hence, but the kind of hats that one needs at this time—neat, pretty, ready-to-wear headwear of a durable nature—something that shows it is no longer winter.

Such hats are here and more stylish headwear was never seen at the prices.....
.....\$2.95 and up to \$9.50

All that is new in Millinery Trimmings is now on display at most reasonable prices. Any advice you may seek will be freely given you.

Choose a novelty from the New Wash Shirt Waist Suits

Prettiest of percales and linens; plain and fancy are the materials of which are made the smart Shirt Waist Suits that we have just put on display. And it's none too early to buy one—you may need it any day now.

The styles are very effective and include many new ideas. The wonder is how so much material and work can be given for so little money.

Prices are.....\$1.75, \$1.95, \$2.50 and to \$4.50 Suit

Cushion Complete Special 50c

Pretty Covers with scroll patterns and fancy stitched edges; several good colors; pillow is of good floss; ready for immediate use and comfort. Showy enough, but not too showy to rest the head on.

Dress Trimming Display

More of the latest joined the Spring display today. May be our enthusiasm, but they appear brighter and more dainty than any that came before—be your own judge. You owe it to yourself to see them anyhow.

There are the Persian and a magnificent assortment of silk and chiffon applique and a number of pretty and effective trimmings entirely novel. The prices are as tempting as the trimmings. The narrow bands and insertings begin at 5c yd, and there are all grades and all widths up to \$2.75 yd.

And still They Come—Newer Wash Goods

We've said a great deal about the Spring Wash Goods—but not nearly so much as they deserve. Remember we've claimed to be the Wash Goods House of Oakland this year and we're making good our claim.

Here's the newest to come in—A pretty lot of genuine Rob Roy Plaid Voile—bright colors and a full line to choose from. You never before saw so much genuine satisfaction and real value at.....20c yd

JOHN L. DAVIE ANNOUNCES HIS PLATFORM

Independent Candidate for Mayor
Issues an Address Outlining the Policy He Will Pursue.

JOHN L. DAVIE.

John L. Davie, independent candidate for Mayor, has issued the following:

Address to the citizens of Oakland:
In announcing my candidacy for the office of Mayor, I deem it due to the people that I should publicly declare, before seeking their suffrages, the principles and policies which shall govern my administration. In case I am chosen as their Chief Executive at the coming election.

1st—I am an independent candidate for the office and, therefore, under no obligation or subservency to any political party, combination, or boss—but, in the performance of my duties, will, as God gives me the wisdom, act in the interests of the whole people without fear favor or hope of reward, except that accorded to a servant for services faithfully performed.

WILL STAY IN HIS OFFICE.

2nd—"I hold these truths to be self-evident." That the city of Oakland, from every natural point of view, is the most admirably located of any city on the continent, and her climatic conditions are unsurpassed by any city on earth. It is also a self-evident truth that she is entitled to all the benefits to be derived from an active, efficient, and economical administration of the laws; that those in charge of her municipal affairs should devote their entire time and their whole energies in building up the city, and make her what Nature ordained she should be, one of the beauty spots of the earth.

If elected, I promise the voters and people of this city to devote my whole time to their service and make every dollar spent count 100 cents in promoting and upbuilding the municipality of Oakland.

FAVORS ECONOMY AND IMPROVEMENT.

3rd—I am not in favor of parsimony in either public or private affairs; but in public, as well as in private life, frugal economy and a pig's honesty should be the watchword. This is especially true and should govern every public servant entrusted with the distribution of public funds, which are too often regarded as a sort of official prey to be dealt out to the spoilsman who have promoted the election of their friends to office and by this means seek to control their actions when elevated to power or place.

This sort of favoritism will find no lodgment in the Mayor's office; if the writer hereof is placed at the helm, I also declare that during my term of service, the rate of taxation shall not exceed the \$1.00 limit, with which tax, economically disbursed, every interest in the city would be protected, and her material development advanced, in a greater degree than has characterized the administration of her affairs for the past nine years.

FOR PARKS AND GOOD STREETS.

4th—The streets of Oakland are now in such a dilapidated condition as to be a menace to human life and a disgrace to a city of even the fifth class. Instead of one which is second in the State both in point of wealth and material resources. My first attention, if elected, will be devoted to remedying this evil, which can be accomplished only by well-directed and persistent effort, which I gave to the subject during my former administration.

Public parks and places of resort for an idle hour for women and children will receive my most fostering care. The energetic promotion of the interests of the public schools which lie at the foundation of the republic, shall ever enlist my earnest solicitation and support; and term

these, together with a determined effort to render more efficient the fire and police departments of the city, shall receive every consideration at my hand.

FAVORS MUNICIPAL WATER WORKS BUT OPPOSES GRAFTING SCHEMES.

5th—I am in favor of the municipal ownership of water and all other public utilities, when the same can be acquired at a fair price; but am opposed to any schemes or grafts by which this city would be plunged into a maze of bonded indebtedness, and therefore denounce the so-called Easy Cities water bonds as an attempt to saddle the city with a debt of six millions of dollars, which would paralyze our industries for the next fifty years.

It would drive capital and investors from Oakland as certain and effectually as though we were attacked by an epidemic of Asiatic cholera. Our taxes are already too high and, if we desire to build up the city, we must reduce instead of increase this burden. Let us first turn our attention to increasing our taxable property by inducing investors to buy property and settle here, and we can then secure water and other public utilities, without laying any embargo upon the city's growth.

POINTS TO FORMER RECORD.

Sixth—I beg leave to call the attention of the voters to the following statement of facts and figures which are taken from the report of the City Auditor of Oakland, and which should be in the hands of every voter of this city.

My administration in 1895 and 1896 cost the city \$1,603,755.82.

My immediate successor, W. R. Thomas, ran up the scale to \$1,812,475.81, or \$208,721.89 in excess of my figure.

Thomas was succeeded by E. W. Snow, whose figures foot up \$1,737,151, leaving a balance in his administration in favor of mine in the sum of \$193,324.71.

Then Anson Barstow took the helm and the city paid during his stewardship \$1,893,660. As compared with my efforts, he was shy \$289,506.73.

PROMISES TO STAY WITHIN THE DOLLAR LIMIT.

This brings us to the present incumbent, who distances all of his predecessors to the tune of \$2,582,373; in excess of my expenditures \$478,620.18.

I will here add that my administration was run on the \$1.00 limit for the first year, which was raised by the City Council to \$1.10 the second year against my veto; but my administration was even then \$234,140.60 less than my immediate predecessor.

If elected, I will reduce the present levy of \$1.26 to \$1.00, which is ample, if properly expended, to conduct the affairs of this city. I will also, as I did during my last term, devote my whole time to the city's affairs in improving her streets, parks and school houses, which have all been sadly overlooked for the last many years. Very respectfully,

JOHN L. DAVIE.

FINAL REHEARSALS FOR LITTLE TYCOON

Final rehearsals are going on for the production of the "Little Tycoon" to be given Friday evening, March 3, at Ye Liberty Playhouse. The opera will not be repeated, and the sale of seats has already assured the musical comedy a splendid financial as well as social success.

The program is one of the most elaborate ever planned for a charity event on this side of the bay, and a large attendance is expected.

FERGUSON HAS
REFUSED OFFERSSt. Mary's Crack
Pitcher Will
Remain.

Frank J. Ferguson, the premier twirler of St. Mary's College is decidedly the best pitcher St. Mary's has had since the time of Joe Corbett.

Ferguson has won two games this season from California and two from Stanford, with the Phoenix team behind him he has shut out each university. His services have been sought for by all the managers of the Coast League, but he intends to stay at college until June when he will graduate. He then intends to practice civil engineering for which he is now studying.

Ferguson is at present captain of the crack Phoenix team; they will meet Stanford on Saturday, March 11th at Recreation Park, San Francisco.

The Oakland High School baseball team has lost the services of its pitcher, Hopkins, one of the best twirlers in the academic league, by the reason of his leaving the institution.

Hopkins pitches with his left wing and has speed and perfect control. Now the team is searching the school for another box artist.

The Oakland High School baseball team will journey to San Rafael next Saturday and there play the team representing Hitchcock's Academy.

BIG INTER-CITY
BASKET-BALL
GAMES.

The first inter-city league game of basketball between high schools in the A. A. U. will be played at the Reliance Club next Friday evening. The game will be between teams representing the Berkeley High School and the Alameda High School.

The Oakland High School basketball team has a game on with the San Mateo High School.

'VARSITY BOATING TALK
BY COACH FROM HARVARD

BERKELEY, March 2.—Much interest is being taken in boating recently at the State University, and many men are out working hard for positions on the Varsity crew. The impression seems to prevail that the larger men have the advantage, but this is by no means so, Coach Garnett saying on the subject yesterday:

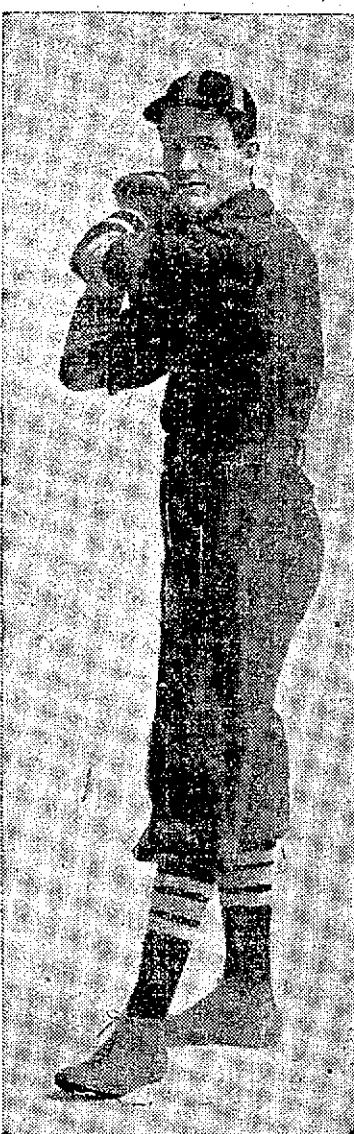

"The material for strokes is very promising and a great deal of interest with the proper spirit is being shown. The material is very good as regards form and strength. Big men as a whole are better than small men, but what we want most is active men. The policy of the stroke has not yet been decided, but the stroke will be adapted to the men that row. A hard catch and easy finish are best adapted to heavy men. The stroke that Teneyce taught Syracuse last year, by means of which his team defeated the crack Cornell crew, is better for light, active men.

WEIGHTS FOR 'VARSITY TEAM
TWO MILE
RACE.

The weights for the Waterhouse cup, a two mile and a quarter were announced yesterday at St. Valentine 115, Schoolmate 114, Horatius 111, Veterano 110, Major Mansie 109, Mendon 107, Luckett 107, Inscrutable 107, Barrack 106, Flying Torpedo 105, Graftor 105, Little Wally 105, Leila 105, Rio Shannon 105, Ebony 105, Chaple 105, Hydrantdale 105, Wenrick 105, Crohan 105, Divina 105, Sionia 105, Reels II 105, Gaudin 105, Rockaway 105, Coloway 105, Sacredus 105, Ink 105, Last Knight 105, Heather Honey 105, Badly Used 105, Colonel Verygood 105, Captain 105, Forsee 105, Marinel 105, Major Tenny 105, Easy Street 105, Blue Dyes 105, Theodor 105, Bombardier 105, Bugle Horn 105, Constable 105, Barchus 105, Examiner 105, Melsteringer 105, Olsten 105, Royalty 105, Vaughan 105, Milopette 105, Lillitus 105, The Gadfly 105.

OFFICIAL LINE-UP OF THE
OAKLAND BASEBALL TEAM
LOHMAN TELLS ABOUT IT.

It was "cut-in" day yesterday. Members of the Oakland team and several aspiring candidates for a place in the field gathered at Idora Park to begin practice for the Pacific Coast Baseball League pennant chase for 1905.

Services opened with a heart-to-heart talk from Hon. Peter Lohman, who has steered Oakland's baseball ship to the flag and who expects to do so again.

"SURE," THEY SAY.

Told by Lohman just what he anticipated of them, the men declared, "Sure!" and the ice was broken.

It was an easy day. Some nice, white "Victor" balls were soiled by contact with bat and diamond loam, and then all the hired hands knocked off for supper.

There will be practice every day and, in the meanwhile, Lohman will lead

his lads a merry chase to get them into the best possible condition.

ON WATER WAGON.

All have signed tickets to stay aboard the water cart. No jumping off to pick up the whip, or then comes the blue envelope. Lohman will buy wine when the pennant is won, but that's all.

The course of training will include morning jaunts over the Alameda county highways. This, so Pete reasons, will get the wind in good shape and make fast base running like the child's game of tag. For the past two weeks Lohman himself has been taking hikes over hill and dale and he feels like a colt in a meadow.

THE SIMPLE LIFE.

Having spent the winter planning his campaign and drawing up a set of rules and regulations to be signed like a pledge by each member of the

team, Pete confidently believes that with the help of the simple life his folks will cop that bit of bunting that goes with the championship of the league.

President Bert will release the barrier the latter part of this month and then the field, composed of Oakland, San Francisco, Tacoma, Los Angeles, Seattle and Portland, will be "off" in a bunch on the long journey.

PROBABLE BETTING.

Probably by liberal plunging, Harris and Fisher will install their respective teams as favorites, but sometimes a long shot brings home the candy. Los Angeles looks like a fair second choice, while Oakland and Seattle may be posted at tempting odds. Write your own ticket on Portland.

To the TRIBUNE Lohman has described the players surrounding him as follows:

BY PETE LOHMAN.

HARRY WALTON, CATCHER—Here's a man who has made a record on the gridiron and he is going to repeat it on the diamond. He will show up strong and drive them over to second in a manner that will frighten every base stealer in the league.

JAMES BYRNES, CATCHER—You all know Jimmy. He was with us last year. He is a clever boy behind the bat. He played his first professional game with Oakland, although he started from San Francisco. In the beginning of the season he injured his thumb so that he could not play with the fellows across the water. He will more than make good this season.

JULE STREIB, FIRST BASE—This is a boy who can be depended upon in an emergency. He covers first station cleverly and showed by his work last year that he is well worth retaining for the Oakland team this year.

W. W. KELLY, SECOND BASE—Now we have a new one for the fans. He has played on the St. Paul team and comes from a family of champions. I am sure that he will not disappoint the crowd. His brother is one of the best men about St. Paul. Kelly is a good-sized young man and has the proper style of a player. Keep an eye on him.

WILLIAM DEVERAUX, THIRD BASE—Do I need to go further? All of you know Bill, he of the red shirt and red—but I will not write it. Who can get them over to first better than he? And who can drive a pitcher crazy faster than Bill. On the coaching lines?

"RUSKY" KING, THIRD BASE—Now, we are not sure of him yet. I believe, however, that he will show with us and judging from his record he will show up well.

"PASTRY" COOK, SHORTSTOP—He is a valuable player and can operate in almost any position. He is late of Salt Lake. He has a good record and should come out strong.

"BUCK" FRANCKS, SHORTSTOP—No introduction is needed. You have seen him perform and know that he is there with quality and quantity. He was one of our best men last year, although he was ill a portion of the season. But "Buck" is the baby to cover short.

A. KRUGER, RIGHTFIELD—Here we have another member of last year's team. But he has forgotten all about last season and will play some of the fastest ball in the league from spring to Christmas.

"POP" VAN HALTREN, CENTERFIELD—Everybody knows Van, both here and in the East. He has performed for a dozen years or more on the big leagues. He was with Seattle last season and kept

things going when they came his way. The fans will go miles to see Van and no doubt he will please us all.

BILL DUNLEAVY, LEFTFIELD—You know him; was with us last year and is here now better than ever. He hurt his knee last season and was on the hospital list for a while, but now he is as limber as a kitten. "Dun" gets the skyrockets that come in his direction, even if he has to paw them out of the clouds.

"RIP" RAPP, PITCHER—He is now in Los Angeles. Although I do not know much about him personally, they say he has a well-stocked puzzle box and has an iron arm.

"OIL" HOGAN, PITCHER—Was discovered in the oil fields of Bakersfield by Kruger. He has out-pitched all the stars down his way and is said to be the proper person for us. I wager he will keep them guessing. Has a solid sounding name, anyway.

OSCAR GRAHAM, PITCHER—No knock-down is needed here. You know, Graham. He handed out the mysterious ones for us last year and has a whole lot more in his puzzle department for 1905. He has just returned from Hanford, his old stamping ground, where he has been investing his riches in real estate. He has quite a corner on the market down that way. He is a steady and reliable boy and that's the kind we want.

"DOC" MOSKIMAN, PITCHER—He has been practicing his profession with us for some seasons. The brand of pills he passes out to the other fellows is awful and hard to take. He has some new prescriptions to fill this term that will make some of those heavy hitters look unwell.

"BABY" ZAMLOCK, PITCHER—He don't know how strong he is; weighs over two hundred pounds and is known to have thrown a ball out of sight. Believe he could throw from here to the sun if the day was not cloudy. All he needs is a little time in fast company and he will be a cracker-jack.

"BILL" EMERSON, PITCHER—He is a good man, but unfortunately, he has to attend school at present and we will not get his services until June. He has been pitching great ball around San Jose and will be a valuable man on the pitching staff.

"RUBE" VICKERS, PITCHER—He is reserved by Holyoke College, but I have reason to believe that he will join us. Perhaps it will be later in the season.

"SMILING" SCHMIDT, PITCHER—His pretzel delivery puzzled them all last year. Needs no introduction, for he is known to all the fans. He will be one of us when the time comes.

PETE LOHMAN, CATCHER—You know me.

INTER-CITY WRESTLING MATCH
BEFORE WEST OAKLAND CLUB.

One of the attractions for the West Oakland Club's March show will be a wrestling contest between A. Mayer of Oakland and Arthur Gonella of San Francisco.

This inter-city grappling match is for a purse of \$350 and is to be decided by three out of five falls.

Mayer is employed at Becker's Market and has the reputation of being one of the strongest men in Alameda county. He can toss the side of a beef about like it was a toy balloon and he bickers expect to see him strangle the life out of his opponent.

Gonella is the pride of North Beach.

He too has a clean record as a "strong man" and declares that he will break a few bones in his opponent's body when they meet.

Considerable interest is being taken in the match and already there is nearly \$1000 in bets deposited on the outcome of the match.

About a hundred residents of North Beach will accompany Gonella to the West Oakland Club and Mayer will have scores of his friends present on the evening of the clash, March 17. Aside from the wrestling match, the matchmaker of the West Oakland Club has arranged a good card of fights between amateurs for that evening.

The first bout will be between "Kid"

Johnson and Al Pazzoche at 125 pounds.

"Hop" Lee and Jim Coakley at 130 pounds, will provide the next four rounds of amusement. Coakley is a brother of Dan Coakley, the West Oakland Club's popular referee.

Mike Foley and Joe Perry will hook up for the next mill. They will meet at 130 pounds.

A good go will be furnished by M. Rogers and "Kid" Lewis. They are signed for 125 pounds.

The main event of the evening will be furnished by Loren Brown of the Reliance Club and "Kid" Johnson of the West Oakland Club. They are due to meet at 125 pounds. There is a side bet on this meeting of \$100.

O. H. S. TEAM IN
SWIMMING
TOURNEY.

For the first time in its history, the Oakland High school will be represented in the Academic Athletic League swimming tournament which will be held tomorrow evening in the tank of the Olympic club.

The Oakland "water dogs" have been practicing for the event at the Piedmont Baths and are in good shape for the various events.

Following are the entries from the various schools:
100 yards—Bromley, Lick; Seeley, St. Matthews; G. Maxwell, P. H. S.; Fay, Wilmerding; Havens, O. H. S.; Solinsky, B. H. S.; Peck, B. H. S.
500 yards—Bromley, Lick; Seeley, St.

Matthews; Fay, Wilmerding; G. Maxwell, P. H. S.; Havens, O. H. S.; Kingbaum.

SCIENCE SETTLES IT.

Dandruff is Caused by a Germ That Saps the Hair's Vitality.

It is now a settled fact that dandruff is caused by a germ. Falling hair and baldness are the result of dandruff. Dr. E. J. Beardsley, of Champaign, Illinois, got hold of the new hair preparation, Newbro's Herpicide—the only one that kills the dandruff germ. He says: "I used Herpicide for my dandruff and falling hair, and I am well satisfied with the result." Dr. J. T. Fugate, of Urbana, Illinois, says: "I have used Herpicide for dandruff with excellent results. I shall prescribe it in my practice." Herpicide kills the dandruff germ. Physicians as well as the general public say so. Sold by leading druggists. Send ten cents in stamps for sample to The Herpicide Company, Detroit, Michigan. Bowman & Company, Special Agents.

HEAVYWEIGHT
CHAMPIONSHIP.

SAM BERGER, from photo taken when working with Jim Corbett.

Berger and Long to
Fight For
Title.

The fight fans about the bay are taking considerable interest in the meeting of Sam Berger and Joe Long, scheduled to take place before the Bay City Club, San Francisco, next Friday evening. The men will clash in Woodward's Pavilion and the winner will be declared the heavy-weight champion of the Pacific Coast in the amateur class.

At the present time Berger holds the title, but Long, who is attached to the San Francisco Club, is certain that he can take it away from him. The mill between the heavies ought to be a good one.

Another battle which promises to be a warm one is that between Dick Sullivan and Jack Grey at 145 pounds. They are two of the best amateur welterweights on the coast. The winner will be matched with George Peterson for the championship.

"Young" Dempsey, a local lad and who has fought before the West Oakland Club, is matched to fight Jack O'Brien at 122 pounds. The remainder of the Bay City's good card is as follows:
Mike Syntz, San Francisco Athletic Club, vs. George Ellis, Bay City Athletic Club, 135 pounds.
John Rodney, Ocean View Club, vs. Jim Ford, H. V. A. C., 125 pounds.
Charles Dunn, San Francisco Athletic Club, vs. George Johnston, L. A. C., 130 Club, vs. George Johnston, L. A. C., vs. Jack Conroy, Hawthorne, 110 pounds.

Down in Cincinnati they are still telling that a wonderful story about Ovie Overall, the Pacific Coast pitcher, going to get \$700 a month for the coming season. This is a beautiful story for the Red fans, but if Cincinnati is going to pay that for a green one, she's foolish.

Secretary Frank Smith of the Detroit Club could have clinched Overall for \$300 a month and he couldn't figure that he was worth even that.—Detroit Tribune.

St. Louis wants Jake Thielman just as much as they did last summer, when Jake was having all his trouble, but the St. Louis people do not appear to have any good men to trade, and McCredie wants men more than he wants cash trades at the present moment. However, some trade will probably be made.

O. H. S. AND FRESHMEN
ATHLETES IN TRACK MEET

BERKELEY, March 2.—Despite the fact that the lateness of the hour prevented several final heats from being run off, the practice meet between the freshmen and Berkeley High school on the oval last night resulted favorably for all parties concerned.

The material that showed up means that the freshmen are very apt to surprise the sophomores next Saturday.

Golcher ran a very pretty race in the 100 and De Marvel in the 1000. Rathbun of Berkeley High school gave a fine exhibition in the 1-lap race and Healey deserves mention here also. Tuller showed up well in the hammer throw and shot put.

Walter Christie says: "The lateness of the hour and large number of men kept us from running off finals in some cases. Members of both teams did exceptional good work in many instances. I have more confidence in some freshmen than they have in themselves. When these boys learn to fight and to dig when tired, California will have a few more champions."

On the whole, I have nothing but praise for the day and the men."

SUMMARY.

75-yard race, two heats, final heat distance 100 yards—Golcher, C.; Healey, C.; Crane, E.

BUILDING & LOAN SOCIETIES ARE CRITICIZED.

A. Sbarbro Addresses the Unitarian Club in Alameda— Wreck Averted.

ALAMEDA, March 2.—The so-called "national" building and loan societies came in for severe criticism at the meeting of the Unitarian Club last night. The principal lecture of the evening was on the topic "Building and Loan Societies, Moral and Social and Plan of Operation." It was to have been delivered by Frank Otis, president of the League of Building and Loan Associations of California, but he was prevented from appearing by Mr. Otis was detained in Sacramento.

ALAMEDA, March 3.—The last of the volunteer fire companies of the city, Thompson Hose, will formally disband at its meeting next Tuesday night. The company, which has been in existence for 100 years, has been in existence for 100 years. The company is concerned, went out of existence at midnight last Tuesday night. The company will meet at 8 o'clock as the date for its dissolution. March 3.

The older companies had permitted withdrawers to take all they had put in, together with their share of the profits. "The new system was investigated in many places, and is barred in some States, notably New York. Years ago an investigation was held in California...

Mr. Sbarbo also criticized the present legislation talked of at Sacramento and San Francisco. TESTIMONY IS CLOSED

WATER RATES WILL BE FIXED BY THE COUNCIL THIS EVENING.

The taking of testimony before the Committee of the City Council was practically finished last night in reference to fixing the water rates for the ensuing year.

From the questions and answers of Attorney M. C. Chapman, representing the Contra Costa Water Company, and also the answers of Arthur L. Adams, it is probable that the water company will not introduce any evidence at all of the ground that the mind of the Council is already made up and that the value of the plant was considerably more than \$7,000,000.

WILL FIX RATES.

The rate to be fixed, it is estimated, will be about twenty-five per cent lower than the rate now being charged. An executive meeting will probably be held tomorrow night at which a decision will be reached.

When the proceedings opened last night, Councilman Wallace introduced the testimony of one of the engineers in the trial of the case before Judge Hart at which the value of the plant for rate fixing purposes was determined to be \$7,000,000.

Chapman objected to the introduction of the evidence but Chairman Adams ruled that he was not holding court but that the committee was to read the testimony of the engineers and to follow the forms prescribed by legal procedure.

Fitzgerald is it not necessary to read the testimony of the engineers for the water company and for the city?

Chapman—I was merely objecting so that the record will be available for future use.

DORNIN'S STATEMENT.

Dornin—in the recent injunction suit claims was made that the rate fixing was a part of the political game. Not being in the political game at the present time I suppose my motives will not be misconstrued showing this time. I have here figures showing that a footing debt increased from nothing in 1901 to \$1,117,380 in 1904. It is also claimed by President Dingee that there has been spent \$500,000 for betterment. The records filed with the Council show that there has been but about \$95,000. Now I would like to ask Mr. Adams how he accounts for the discrepancy.

Adams—I cannot attempt to explain another man's figures. What Mr. Dornin states is the fact of his own figures. I would impute nothing against the motives of Mr. Dornin but when he asks me to explain an assumption of his own I cannot undertake to do it.

Elliot—I think that Mr. Dingee should be summoned to give testimony. If the chief engineer and the president of the company disagree as to the \$500,000 we may have something definite to work on.

VALUE ALREADY FIXED.

Adams—As long as the City Council has already fixed a value of \$7,000,000 on the plant, I do not see how an inconceivable sum should enter into its calculations. It would not affect their decision materially.

Dornin—There is no assertion on my part. I have taken the records of the proceedings and the records in this Council. I would like an explanation.

Attorney Chapman will call attention to the fact that Engineer Adams is the city's representative and not the Contra Costa Water Company's. The company refuses to be bound by his testimony. We have not put Mr. Adams on the witness stand.

Aiken—I do not think that any such statement should be made.

Elliot—Since Mr. Chapman says that Mr. Adams is the city's expert and not

EVANGELIST NOW ON THE FIELD

DR. OSTROM READY TO BEGIN THE HARVESTING OF SOULS.

Monday Dr. Henry Ostrom, who is to lead the evangelistic work in District No. 2 for the next two weeks, met the ministers of the district, and pronounced himself thoroughly delighted with the promise of good things ahead. His meetings will be held in First Presbyterian Church, and will begin next Sunday evening.

Dr. Ostrom is agile and quick. His words are keen as a Damascus blade. Yet he is delightfully clear and smooth in movement, and his words flow easily if they do flow rapidly. He keeps people awake and glad all the time they are awake. He has reminded the newspaper reporters of Sherlock Holmes, of Sol Smith Russell, of Walker Whiteside and other celebrities, and has caused the statement that the odds in looks or style are against them.

Leaving his work some years ago as pastor of a wealthy and aristocratic Milwaukee church, he entered the evangelistic field, and has been a pronounced success from the start. He is unique as a preacher, and handled the language we speak to striking advantage. The most scholarly are helped and the simplest mind is made to see the truth.

John P. Ellis, Dr. Ostrom's singer, is a chorus leader second to none in the country. For four years he was at the head of the choir of the First Presbyterian Church, and his solos are most effective, and his genial personality always captures his choir.

These workers will speak and sing at First Presbyterian church every evening, beginning Sunday evening next. Preparations have been made for overflow meetings and for extra services at other hours. The crowds to hear Dr. Ostrom promise to be as large as those that are certain to greet Dr. Chapman at First Congregational church.

WILL SHOWER SEAMEN'S REST

Oakland has experienced various showers lately not always the kind that waters the earth. Some of them have been "lively" some "rock" some "lin" and now comes another, a "crockery shower," to be given by the Christian Endeavorers for the benefit of the Seamen's Rest this evening.

The pantry shelves of that hospitable haven for those who spend most of their lives on the ocean, are not very heavily stocked with dishes in which to serve the good things a sailor or an amateur that might like.

The people who are interested in sailors and the work of Endeavorers are cordially invited to bring a bit of crockery, or knives and forks, to the Seamen's Rest on Broadway, between Fourth and Fifth streets tonight, and incidentally to learn something about this practical work the young people are doing.

WILL RETURN NEXT WEEK

Mr. Etienne Messager, who has been identified with the mercantile business of San Francisco for twenty-six years and is considered one of the best examples of the pioneer merchants is now in New York.

Mr. Messager is well known to many Oakland people who for years have depended upon his house to furnish them with the proper styles in Coats, Suits and Gowns. Twice each year this gentleman merchant makes these trips to America's fashionable center to replenish his large stock. His busy house at Post street and Grant avenue is the assembling place of Oakland's smart dressers.

IRISH MATTERS IN PARLIAMENT

LONDON, March 2.—After declining an amendment proposed by T. R. Buchanan (Liberal), to the address in reply to the speech from the throne, declaring that the national expenditure is excessive and burdensome, the house committee spent the night in debating another amendment proposed by A. J. C. Donelan, regretting that the speech from the throne contained no allusion to the deal during the present session with the pressing needs for improvement of the condition of laborers in Ireland.

When the division was called the Ulster Unionists left the house amid Nationalist jeers. Mr. Donelan's amendment was rejected by the vote of 228 to 184.

Frank Balfour then moved a closure, under which the address in reply to the speech from the throne was adopted, 235 to 175.

LORD MILNER RESIGNS.

LONDON, March 2.—It is officially announced that the Earl of Selbourne, First Lord of the Admiralty, will succeed Lord Milner as High Commissioner in South Africa. Lord Milner resigned for reasons connected with the state of his health, and he will leave South Africa at the end of March.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyances of urinary disorders, the dangers of diabetes or any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what an Oakland citizen says:

Mrs. A. Stewart, Model Confectionery and Bakery, No. 307 San Pablo, writes: "I have been afflicted with a kidney ailment for some time. COUNCILMAN'S HORSE KILLED

A horse belonging to Councilman John L. Howard, and driven yesterday afternoon by his coachman, ran into an electric car at Twenty-fifth and Telegraph avenue, being killed in the collision. The coachman disappeared immediately after the accident and has not been seen since. It is thought that he was intoxicated at the time, as he had told several of his friends that it was his birthday and that he intended to celebrate.

IGNORE THE ORDER.

CHICAGO, March 2.—Executive officers of the Western railroad have decided to ignore the order of the Interstate Commerce Commission requiring them to charge no higher rates for livestock than for other freight.

By the advice of the attorneys for the different roads, the matter will be tested in the courts, as the railroads are agreed that it will be impossible to either lower the livestock rates or to increase the rates on livestock products.

SAFE BUT VERY DULL.

(From Puck.)

Mag.—What is "platonic affection," Liz?

Liz.—Well, no; it ain't true love! Dere ain't no quarrelling in it; neer no fighting; neer worrying; neer looking; neer drinking; neer getting arrested; neer non-support; neer nothing; neer really passionate!

WOMEN'S LABEL LEAGUE

ENTERTAINMENT AND DANCE

LAST NIGHT IS A SUCCESS.

An entertainment and dance was given last night at Pythian Castle by the Women's Label League and the Butchers' Union, No. 120. It was a complete success, nearly 600 persons being present.

The affair was opened by a speech from John L. Davis, independent candidate for Mayor. Then the following program was rendered: Song, Curran brothers; vocal solo, F. Smith; speech, C. E. Schmidt; first vice president of the International Butchers' League; recitation, Mrs. Adolph Lee.

J. F. Erhard and Miss L. Osterloh led the grand march. Dancing followed and continued until 11 o'clock, when the guests adjourned to the banquet hall and partook of a cold supper. Lemonade was served all the evening.

After the supper dancing was resumed until midnight.
